## Research Methodology: Research Process: Step by Step Approach

18th January 2023

| Name of the Participants   | Course and Semester-        | Write in short about the Research Process: A step-by- step approach (As per your understanding after attending session)-   |
|----------------------------|-----------------------------|--|
| Rajesh mandhyan            | Lim sem 2                   | V good   |
| Amita chaware              | LLM 4th sem                 | Very nice and elaborative session.   |
| Anurag Saxena              | LL.M. sem 4                 | It was an elaborative session on research with examples by Sir.  |
| Akash sharma               | LLM SEM 1                   | Research process is very important for getting better results  |
| Savita Dixit               | LLM FIRST YEAR CRIMINAL LAW | Selection of a right topic is like half problem is solved  |
| Purva Thavi                | LLM - Semester 01           | The research process consists of a series of systematic procedures that a researcher must go through in order to generate knowledge that will be considered valuable by the project and focus on the relevant topic.   |
| Neha tiwari                | LLM sem 2                   | We can identify the problem , review literature, hypothesis, research design , collection of data research report etc  |
| Parvind Kohar              | LLM Sem 2                   | It's a process for identifying the topic, formulating the hypothesis and so on   |
| Engoor Bijoy Bharathan     | Sem 1                       | Yes. Nice session  |
| Sufiya Badruzzama Siddiqui | SY.LLM CRIMINOLOGY          | Step 1: Conduct secondary data analysis. Step 2: Do qualitative research. Step 3: Determine methods of collecting quantitative data (survey, observation, and experimentation) Step 4: Determine the definition of the information needed.   |
| Dhanashree Mukesh Hublikar | Syllm sem 4                 | Step 1: Conduct secondary data analysis. Step 2: Do qualitative research. Step 3: Determine methods of collecting quantitative data (survey, observation, and experimentation) Step 4: Determine the definition of the information needed.   |
| Prerna Girish Mehta        | Syllm sem-4                 | Step 1: Identify the Problem. Step 2: Evaluate the Literature. Step 3: Create Hypotheses. Step 4: The Research Design. Step 5: Describe Population. Step 6: Data Collection. Step 7: Data Analysis. Step 8: The Report-writing.  |
| Aklesh Yadav               | LLM Sem II                  | Research process is a scientific tool methodology to understand a particular topic. It may be imperical research . To understand identification & selection or research topic.Formulation of reasearch topic with problem & solution. major steps to be collection of data with formulation of hypothesis analysis. Interpretation of data with upto data research |
