### Women in Formal Sector

Women are facing increased domestic care burdens in the wake of children and earning members being confined to home after the lockdown.

Middle and upper-class educated women employed who are working from home as they have information technology enabled communication channel.

They also must juggle with

housework,

childcare,

home-schooling, and

office work without support of domestic help.

Relatively better off and economically secure

**Migrant Workers are hardworking CITI-MAKERS, the backbone of the urban economy**
