REPORT ON ARTIFICIAL INTELLIGENCE TOOLS

On 30th May 2023, a one day Online Workshop on Artificial Intelligence Tools was organised by HVPS College of Law for teaching and non-teaching Staff. AI tools are software that facilitate the development, implementation, and deployment of artificial intelligence solutions. These tools help researchers, developers, and data scientists to build, train, and deploy AI models efficiently. In today's rapidly evolving technological landscape, Artificial Intelligence has emerged as a game-changer across industries. It has the potential to revolutionize the way we work, live, and interact with the world around us. These AI tools, among others, enable professionals to leverage the power of artificial intelligence, democratize access to AI capabilities, and accelerate the development and deployment of AI solutions across various domains.

The workshop convener was I/C Principal Dr. Mrs. Madhura Kalamkar, who spoke about Artificial Intelligence (AI) has emerged as a transformative technology, revolutionizing industries across the globe. With its ability to mimic human intelligence and perform complex tasks, AI has the potential to shape the future in unprecedented ways.
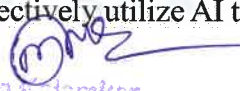

The resource person was Mr. Sagar Dalvi, Senior Developer. He introduced key concepts on artificial intelligence; various tools of Artificial Intelligence. He stated that AI tools are indispensable in the development, research, and application of artificial intelligence. They enhance productivity, accessibility, scalability, performance, and foster innovation while providing the necessary support and resources for individuals working in the AI domain. He focussed on the use of some of the AI tools such as ChatGPT, Tome app/ slide AI, Notion, Chat pull, Grammerly, Quilbot, Print friendly, Select Text, Digo, Duolingo, etc.

The staff showed keen interest in the workshop and have gained a hands-on experience in the topics of Artificial intelligence. This workshop was a good learning experience for the participants. They had the opportunity to familiarize themselves to AI tools. The workshop coordinator was Asst. Prof. Sonal Jain.

OUTCOME

The Staff gained understanding of various AI tools and their functionalities. This knowledge will enable them to select the right tool for specific AI tasks and understand how to leverage their functionalities effectively. The staff will enhance their technical skills and become proficient in applying AI tools in day to day working. The overall goal is to equip staff with the necessary knowledge, skills, and confidence to effectively utilize AI tools and contribute to the field of artificial intelligence.
